FRONTEND DEVELOPER

Bahawalpur, Pakistan • +92 305 4122637 • hamzabuildsweb@gmail.com • Portfolio GitHub Instagram

Frontend Developer with 2+ years building fast, responsive web applications using Next.js, React, TypeScript, and Tailwind CSS. Delivered 40+ production websites, including e-commerce storefronts, business and management systems, and portfolio sites, with clean UI and strong performance. Experienced owning projects end-to-end: component architecture, Supabase integration, and deployment on Vercel.

WORK EXPERIENCE

Frontend Developer

Jan 2023 – Present

Freelance, Web Development

- Delivered 40+ production websites for startups and small businesses.
- Built responsive e-commerce storefronts with product listings, category pages, cart, and checkout flows using Next.js and Tailwind CSS.
- Integrated Supabase for authentication, databases, and dynamic content management.
- Developed business and management systems, including dashboards and admin interfaces, in React and TypeScript.
- Built reusable component libraries to speed up new project builds and maintain design consistency.
- Implemented pixel-perfect, mobile-first layouts across mobile, tablet, and desktop.
- Optimized performance through image optimization, lazy loading, and code splitting.
- Deployed and maintained projects on Vercel, managing the full client lifecycle from requirements to post-launch support.
